

RxSystems introduces

PORTABLE ELECTRONIC CONTROL BOXES (PECB)

DEA Compliance and Satisfied Customers At An Affordable Price

Now more than ever, with the Drug Enforcement Administration's increased use of spot inspections, some that have resulted in hefty fines, it's incredibly important for pharmacy's to have a system in place that provides affordable, safe, efficient, secure and DEA compliant medication management.

RxSystems new Portable Electronic Control Boxes (PECB)

were developed and designed specifically for Long Term Care Pharmacies. When used in conjunction with RxSystems data collection and materials management Web-Based application, they offer your pharmacy an affordable answer to complying with the standards of practice and federal regulations for nursing facilities set forth by the Drug Enforcement Administration and the Control Substance Act of 1970.

RxSystems Portable Electronic Control Boxes and software will help you...

- comply with DEA regulations and CSA guidelines
- avoid substantial fines by the DEA for non-compliance
- keep your inventory secure from the pharmacy to the facility to the patient
- step by step, real time date and time tracking of dispensed drugs
- increase security of high-risk and high-alert medications
- identify potential diversion and inventory loss
- ensure accurate medication dispensing
- provide better customer care

Plus, RxSystems PECB's and software application is...

- a fraction of the cost to comparable and existing systems on the market
- low initial cost that is scalable to your budget (start with one box and add boxes as your budget allows)
- web-based, so there's no need to buy a dedicated computer to run the software like the competition
- adaptable and designed to support 1,000 – 50,000 beds
- HIPPA compliant

Control Your Inventory Every Step of the Way

Unlike the competition, with **RxSystems Portable Electronic Control Boxes (PECB)** your medications are locked up from the pharmacy, to the facility, to the patient, not just at the point of dispensing. RxSystems PECB's are the best solution on the market to guarantee your medications are always secure, at only a fraction of the cost to existing options in the industry. This secure system helps you be compliant with all the strict guidelines set forth for the pharmaceutical industry by the Drug Enforcement Administration.

RxSystems . . . real time pharmaceutical solutions that keep your business on the cutting edge of the industry, while keeping your customers safe and satisfied.
